March 23, 2023 • 1:00 pm
At the Ranch • Sidney, MT

Welcome to the 2023 GDAR Bull Sale

All of us here at Gartner-Denowh would like to welcome you to our 2023 bull sale. We are very excited about this year's offering, and we hope you will take a look.

We would like to take this opportunity to thank all of our valued customers and friends who have supported us throughout the years. Without your continued support and faith in our program we wouldn't be in business today.

Once again we are offering 250 replacement heifers along with the bulls. They are a great set of heifers that will make excellent cows. The bulls look better than ever. We have some exciting new bloodlines this year, and top to bottom, this set of bulls is more uniform and stout than ever before.

The bulls have all passed a breeding soundness and fertility exam performed by Dr. Gary Schieber of Sidney, Montana prior to the sale. The bulls were fed a high roughage, moderate gain ration to ensure structural soundness and longevity. As in the past, we have tried to gather as much useful information as possible to help you in your bull buying decision. If you would like any additional data that isn't in the catalog please log onto our website or contact us and we will get it to you.

Please feel free to contact us at any time if you have any questions about the catalog, our cattle, or our program. The bulls and heifers can be inspected any time, just let us know and we will be happy to show you around.

Thank you for your interest in our program, we look forward to seeing you on sale day.

Don't forget our pre-sale supper at 6:00 on Wednesday evening.

Sincerely,

The Denowh's

"For All Your Bull Buying Needs"

Welcome to the annual Gartner Denowh Bull Sale.

For decades the GDAR prefix has been a gold standard in quality Angus genetics. Hundreds of bulls and females carrying that prefix have helped craft the Angus breed into what it is today. From A.I. sires that serviced thousands of females to individual herd bulls that shaped programs from coast to coast. Females that were purchased at GDAR went on to write Angus history and become the cornerstones of many prominent Angus herds across the country.

The program at GDAR is stronger today than it ever has been! From the volume of bulls sold, that gives you more choices on sale day; to the large sire groups of half and three quarter brothers; to the E.T full sibs that continue to be a sale feature each and every year. As the mates to the bulls selling come into production you can only imagine the quality and consistency this program gains every year.

The Denowh family keeps their genetic base commercially focused. They are not trying to create one great one, instead they concentrate on what genetics are the most profitable for their customer base. That approach also avails itself to producing herd bulls for purebred Angus breeders that have the same goals and perspective as GDAR.

This year's sale offering is a solid mix of herd bulls raised or purchased by GDAR and a select few A.I. sires. Sires they feel meet the environmental expectations their cow herd demands.

If I can be of any assistance as you prepare for this sale, please feel free to contact me via phone, text, or email.

Sincerely,
Ron Frye

250 Replacement Heifers

Straight Out of the GDAR Program

Producing better cows generation after generation has been the goal of the GDAR program for 60 years. GDAR cows are functional, fertile, easy fleshing, moderate framed, feminine, and possess the genetics to produce profit at every stage of the beef industry. This is the chance to put some of these females to work on your operation.

Over half of these heifers are out of GDAR AI sires with the remainder being out of GDAR bulls. All heifers were raised at GDAR, most on the commercial operation, with a few being out of registered cows. They have a similar genetic package to the bulls selling, and all of the maternal excellence GDAR is known for.

All heifers sell as commercials. They will be sorted and lotted by size and will sell in lot order in groups of 5 or more. Approximate weights will be available to estimate load sizes. They can be viewed any time, they are only a few minutes from the ranch, and will be on location for sale day.

GDAR Donors

GDAR donors are a very select group of cows. We only pick a few cows each year, and they must prove themselves in our program before being considered. We want our embryo program to produce females. We select cows with the best udders, best feet, best look, and best production because we want daughters. While matings are picked to produce great females, we seem to end up with some exceptional bulls each year also. Take a close look at these embryo bulls to access some of the most elite genetics here at GDAR.

GDAR Pamela Ever 3442

The famous 3442 donor has had a huge impact here at GDAR. Many of the top bulls will have her on the bottom side of the pedigree. Her influence continues through her daughters & granddaughters. Three of our donors, GDAR Pamela Ever 45, GDAR Pamela Ever 2115, and GDAR Pamela Ever 2130 are descended from this matriarch.

GDAR Ace 1719

Ace was our second high selling bull in 2022 going to Spickler Ranch North. Ace was a phenotypic standout at the 2022 sale. Look for these bulls to be some of our best in next year's sale. The females should be even better. His dam, Miss Forever 151, was one of the most complete cows to have ever grazed our pastures.

Load Up 1320 was our high selling bull in our 2022 bull sale going to Wilde Angus Ranch in Minnesota. His calves are coming easy with lots of vigor. We are very excited about this young herd bull. Daughters should be flat awesome, combining two of our leading maternal sires, Load Up and Justified.

All In 024 takes performance to the next level. He was the heaviest used sire here at GDAR in 2022. Look for a lot of these bulls in next year's sale. His dam is a beautiful Reload daughter with a great udder and feet. These calves really hit the ground running, we expect big things from this big time herd bull.
