

250 Replacement Heifers

Straight Out of the GDAR Program

Producing better cows generation after generation has been the goal of the GDAR program for over 60 years. GDAR cows are functional, fertile, easy fleshing, moderate framed, feminine, and possess the genetics to produce profit at every stage of the beef industry. This is the chance to put some of these females to work on your operation.

Over half of these heifers are out of GDAR AI sires with the remainder being out of GDAR bulls. All heifers were raised at GDAR, group 1 being out of registered cows and groups 2 & 3 off of the commercial operation. They have a similar genetic package to the bulls selling, and all of the maternal excellence GDAR is known for.

All heifers sell as commercial. Papers are available on group 1 for an additional fee. They have been sorted and lotted by size and will sell in lot order. None of the heifers carry a brand. These are all GDAR raised heifers, none have been purchased.

Group	Count	Weight
1	80	794
2	80	824
3	90	760

- ✓ Heifers sell before bulls at 1:00 MDT
