ANGUS RANCH

Commercial Female Sale

950 Bred Females Sell

From GDAR & Special Guest Consignors

Sidney Livestock Market Center

January 23rd, 2026 • Sidney, MT

12:00 MST • Lunch at 11:00

GDAR is completely dispersing their commercial cowherd. This herd was built right alongside the registered herd and represents all of the maternal excellence GDAR is known for. Artificial insemination has been used extensively to develop these females, and many would be out of industry leading GDAR herd bulls.

Don't miss this opportunity to put some GDAR females to work for you!

Highlights

- 780 Raised by GDAR
- 120 from Bar JV
- 210 3-4 Year Olds
- 226 Bred Heifers
- Over 370 Head AI Bred
- 23 Mature GDAR Bulls

Females will be sorted by age and cycle. March, April, and May calvers will be offered.

GDAR Registered Bred Heifers

38 Registered Bred Heifers

- Due to start Calving 3/15 for 45 days.
- Sell as commercials
- Registration papers available for \$200
- Right out of the registered replacements

These are the later calving bred heifers out of the group GDAR chose as replacements last year. Some of the top GDAR genetics will be represented here! They are bred to the same herdsires as the heifers GDAR will be calving this year, GDAR Bardolier 4572, GDAR Load Up 392, and Math Ultra 164. All three herdbulls were also AI sires this year. Pedigrees are available upon request.

GDAR Registered Cows

126 Registered Cows

- 41 3-4 Year Olds
- 42 5-6 Year Olds
- 43 Mature Cows
- Due to Calve on 3/20 for 30 days
- Registration papers available

GDAR has selected hard for a high maternal, highly profitable cowherd for nearly 70 years. Here's the chance to put some of those females to work for you. All of these cows were raised right here at GDAR and are bred to GDAR herd sires. We will transfer registration papers for an extra fee. Pedigrees are available upon request.

GDAR Commercial Bred Heifers

52 Bred Heifers

- 37 Bred Heifers AI bred, due on 3/25
- 18 Bred Heifers due on 4/15 for 45 days

This group was originally selected to go back into our commercial herd. We picked them right out of the heart of the 2024 heifer calf crop. Two AI sires were utilized, GDAR Justo 2711 and GDAR Bardolier 4572. Both featured herdbulls here at GDAR.

GDAR Commercial Bred Cows

564 Bred Cows

- 76 AI Bred 3-4 Year Olds
- 75 Bull Bred 3-4 Year Olds
- 92 AI Bred 5-6 Year Olds
- 59 Bull Bred 5-6 Year Olds
- 76 AI Bred 7-8 Year Olds
- 45 Bull Bred 7-8 Year Olds
- 75 AI Bred Mature Cows
- 45 Bull Bred Mature Cows
- 21 June Calving Cows Mostly 3-6 Year Olds
- AI Due Dates 4/5 and 4/11

This is a complete dispersion of the GDAR commercial cow herd. We have worked extremely hard to build this herd, utilizing the same philosophy and tools as we use in our registered herd. These girls were raised in rough country and know how to travel and forage. Artificial Insemination was used every year on this herd, many of these cows would go back to the same sires as our registered herd. This year's AI bulls included two of our newest acquisitions, SRS Jericho 9204 and MAR Squared Up 40, both of which saw heavy use in our registered herd. We also used an old favorite, GDAR Recap 0746. Clean up sires would have all originated right here at GDAR. We are very proud of this set of females and really hate to see them go!

Bar JV Registered Bred Heifers

30 Registered Bred Heifers

- Due to start Calving 4/20 for 30 days
- Right out of the registered replacements
- Pedigrees available upon request
- Registration papers available for \$200
- Call Dale Vitt for more info 406-480-5676

Bar JV has been focusing on the female for 50 years. By selecting for high maternal cows with longevity, good dispositions and lots of performance they have developed one of Eastern Montana's elite cowherds. This fancy group of bred heifers came right out of the heifers they kept for replacements. Service sires were HA Resilient 4373, WMR Rainmaker 241, Vermillion Badlands L121, and Bar JV Playbook 4164. Pedigrees are available upon request.

Bar JV Registered Cows

30 Registered Mature Cows

- Some AI bred, due March 10th
- Bull bred due April 1st for 45 days
- Pedigrees available upon request
- Registration papers available for \$200
- Call Dale Vitt for more info 406-480-5676

This set of mature cows have jumped through the hoops every year at Bar JV. You can be sure they have raised good calves, stayed sound, bred back, and been excellent mothers. They are bred to the same herd sires Bar JV uses on all the registered herd. This will be a great opportunity to pick up some really proven genetics. Pedigrees are available upon request.

Ross Ranch Bred Heifers

60 Bred Heifers

- Will sort to either calve from March 20th to April 15th or April 16th to May 15th.
- Bred to light birth Angus bulls
- Heifers originated from Bar JV
- Call Dale Vitt for more info 406-480-5676

Ross Ranch, located at Grenora ND, purchased these heifers through the Bar JV spring bull sale. This will be a really fancy set of bred heifers backed by the Bar JV program. They are bred to light birth weight Angus bulls and have had all their shots.

Tracy Weyer Bred Heifers

25 Bred Heifers

- Calve from 4/15 to 4/25
- Bred to light birth GDAR Angus bulls
- Home raised, 1 Iron
- Call Tracey for more info 406-351-1810

Tracy is bringing us a really nice set of bred heifers that will calve in an extremely tight window! They were ultrasound tested to calve in 10 days. Tracey buys out of the top end of the GDAR bull sale every year. The service sires should have excellent calving ease and the calves should have lots of grow. These girls are home raised North of Wibaux MT, are 1 iron, should weigh over 1000 pounds and have been pour and vaccinated.

Prewitt & Company Bred Heifers

21 Bred Heifers

- All AI bred to GDAR Bardolier 2363
- Synchronized to be due 4/3
- Weighing 1050#
- Call Tim Larson for more info 406-351-1810

Prewitt and Company is offering a great opportunity to buy a set of heifers bred to one of GDAR's leading herd sires, GDAR Bardolier 2363. These heifers were hand picked by the Prewitt crew and developed with function and longevity in mind.
